### Switzerland

Technologiezentrum Zentralschweiz (ITZ)  
6010 Kriens [www.itz.ch](http://www.itz.ch)

Project duration: 01.07.2012 - 30.06.2015

**CABEE**  
Capitalizing Alpine Building  
Evaluation Experiences

THIS PROJECT IS CO-FUNDED BY THE  
EUROPEAN REGIONAL DEVELOPMENT FUND  
Investing in your future

## CABEE stands for Capitalizing Alpine Building Evaluation Experiences!

CABEE is a transnational Alpine Space project to create and implement an Alpine-wide guideline for definition, procurement, production, assessment and promotion as well as learning about new and refurbished Nearly-Zero-Emission-Buildings (NZEB) and their neighborhoods. CABEE capitalizes wisdom from finished and ongoing EU-projects but also projects from the Alpine Space program. It focuses on a mass oriented approach with low entry barriers and an on-going Open-Source support.

Pilot activities are settled on public tendering, user behavior and an eco-assessment approach towards 100%. The integration of micro smart energy grids will be explored and Furthermore, markets for NZEBs will be prepared, especially in cooperation with public authorities and SMEs. Established "Regional Operation Committees" supported by a transnational sustainable network of experts will make that possible.

## CABEE at a glance

### Pilot testing of Guidelines

- Testing public tendering (40 tenders common value of 20.000.000 Euros).
- user needs and solutions for proper usage of NZEBs. (Evaluation of 40 buildings)
- Towards assessing 100% of public buildings (9 regions).

### Micro smart energy grids

- Analyses of actual building sites (10 building sites)
- Integration of buildings in smart energy grids (10 pilot case studies)
- Integration of neighborhoods in smart energy grids (6 feasibility studies)

### Good Governance

- Model function of public buildings (18 field studies)
- **21-23.10.2013, Vorarlberg; conference for the development of the Alpine Guideline**
- internet-based open-source support via a knowledge hub

### Strategic market preparations

- Preparation of the capability of SMEs (20 workshops)
- Establishing an on-going services for SMEs
- 22 Workshops for public authorities
